AMENDMENTS TO THE CLAIMS

1-22. (Cancelled)

23. (Original) A method, comprising:

placing a component of a hard disk drive in a packing containment unit of a packing tray;
positioning an exchange tray with an exchange containment unit matching the packing
containment unit above and in contact with the packing tray; and
rotating the packing tray and the exchange tray together to move the component from the
packing tray to the exchange tray.

24. (Original) The method of claim 23, further comprising:

holding a plurality of components in the packing tray simultaneously; and
transferring the plurality of components to the exchange tray simultaneously.

25. (Original) The method of claim 23, wherein the exchange containment unit is an
indentation shaped to hold the component.

26. (Original) The method of claim 23, wherein the exchange containment unit is a set of
prongs to hold the component.

Amendment dated: October 26, 2005

Reply to Restriction Requirement dated: September 26, 2005

27. (Original) The method of claim 23, wherein a limiter attached to the exchange base matches a limiter of the packing tray.
28. (Original) The method of claim 23, wherein the component is a magnetic read/write head.
29. (Original) The method of claim 23, wherein the component is a micro-actuator.
30. (Original) The method of claim 23, wherein the component is a head gimbal assembly.
31. (Original) The method of claim 23, wherein the component is a head suspension.
32. (Original) The method of claim 23, further comprising securing at least one pin hole in the exchange base to at least one pin hole in the packing tray.
